

iCompose — Composition: how to get started! (overview)

CCDesigner prototype overview — original outlines for demo planning only. Not a paid publisher pack. Logos and product names do not imply endorsement.

Key stage & curriculum

KS3 / GCSE beginners (and MYP 4/5 equivalents). Inspired by the free iCompose course “Composition – how to get started!” (~30 minutes, 12 lessons on [icancompose.com](https://www.icancompose.com)).

Prototype outlines only — course videos and worksheets stay on iCompose.

Course themes (public listing)

- Getting inspired; generating ideas; mood boards and mind maps
- Listening journal and discovering linked pieces
- Composer’s notebook; improvising
- Starting points: image, scale/mode, rhythmic motif, chord sequence

Prototype lesson sequence (3 × classroom stubs)

1. Meet the Getting Started course — skim pathway; pick lessons that fit your scheme.
2. Listening into composing — one extract!’ melody/rhythm/texture talk!’ idea
3. First sketch and refine — 4–8 bars; share; refine against course success criteria on ICC.

Example lesson deep-dive — Start with a rhythm

Starter (5): Clap a 2-bar motif; class variations.

Develop (15): Notate / DAW the motif; try three pitch shapes over the same rhythm.

Apply (8): Choose strongest version; name mood in one sentence.

Plenary (2): Save to composer’s notebook with date and stimulus note.
